

# LR11

Inspection rewriter

**LR11**  
Simpel and easy to use rewriter

# LR11

## Description:

The LR11 is a table top rewinder for fast rewinding of labels. The machine is available as a simple rewinder with no inspection and as an inspection rewinder with missing label and missing matrix detection.

The table design allows the rewinder to make perfect rolls even if the unwinding roll has bad windings.

Operation and settings are controlled on a touch screen in the local language.

## Technical specifications:

Built-in label counter:	One preselection and five digits
Optional inspection equipment:	For detection of missing labels or waste
Max. unwind diameter:	Ø 300 - 500 mm subject to web width
Max. rewind diameter:	Ø 300 - 400 mm subject to web width
Max. web width:	110mm (~4.3"). *Upto 200mm with special kit.
Max. speed:	250-350 m/min

Dimensions (L x W x H) 1050 x 700 x 360/200 mm

Weight 85 kg

Electricity supply 1 x 230 V, 50/60 Hz, max 3.0 Amp

*Touch screen and control buttons*

*Label ensures perfect rolls*
